

RESEARCH VISITS TO IHES

An international research institute in mathematics and theoretical physics located just outside Paris, in France, every year IHES welcomes about 200 researchers from across the world in an exceptional environment.

The Institute intends to **strengthen its relationship with mathematicians and theoretical physicists on the African continent** through a specific visiting program, funded by the Simons Foundation.

These visitors will receive:

- a daily allowance
- free accommodation at the Institute's residence
- free lunch at the Institute's cafeteria on week-days
- reimbursement of traveling costs

NEXT SELECTION: JUNE 2022
